## Public Notification On Collection Of Pending Service Charges

The Phuentsholing Thromde administration has already issued two notices regarding the payment of service charges for the year 2023 and 2024. Despite repeated notifications, it has been observed that several plot owners have still not cleared their dues. Therefore, Thromde Administration would like to urge all concerned plot owners for the final time to settle their outstanding service charges immediately either in person at the Thromde Office or through online payment.

Please note that:

- **A penalty of 24% per annum** will be levied on any outstanding payments after the due date.
- The Thromde **will not be able to process or approve any services** (including construction approval, transaction, etc) for plot owners with **pending service charges**.

For online payment assistance or further inquiries, please contact:
